A spiral staircase
And a flowing robe
Eyes of fire
That give me hope
But through the airways
A sign so clear
There s someone else that you hold dear

Changing your mind
In the blink of an eye
And forgettin your lies
It was no surprise

The tears I cried
And the truth I denied myself
You know I fell for you
With my eyes wide shut
The tears I cried
And the truth I denied myself
You should have walked away
With my eyes wide shut

Worldwide chaos girl
People love and hate
A nationwide panic, yeah
