[Verse 2]

**Em D C**  
Once there were trenches and walls  
          **Bm Em**  
and one point of every view  
**Em D C**  
Fight til the other man falls  
          **Bm Em**  
Kill him before he kills you  
**Em D C**  
These days the edges are blurred,  
          **Bm Em**  
I m old and tired of war  
**Em D C**  
I hear the other man s words  
          **G**  
I m not that sure anymore

[Riff]

**G C Dsus G**  
**G C Em D G**

[Chorus 2]

**G C Em D**  
Shades of grey are all that I find  
**G C D Em**  
When I look to the enemy line  
**G C Em D**  
Black and white was so easy for me  
**G C D E**  
But shades of grey are the colors I see

Now with the wisdom of years  
          **Bm Em**  
I try to reason things out  
**Em D C**

And the only people I fear  
                  **Bm**                  **Em**  
are those who never have doubts  
**Em**                  **D**                  **C**  
Save us all from arrogant men,  
                  **Bm**                  **Em**  
and all the causes they re for  
**Em**                  **D**                  **C**  
I won t be righteous again  
                  **G**  
I m not that sure anymore

Shades of grey are all that I find  
          **G**          **C**          **D**          **Em**  
When I look to the enemy line  
**G**                  **C**          **Em**          **D**  
There ain t no rainbows shining on me  
          **G**          **C**          **D**          **E**  
Shades of grey are the colors I see

**G**          **C**          **Em**          **D**  
Shades of grey wherever I go  
          **G**          **C**          **D**          **Em**  
The more I find out the less that I know  
**G**                  **C**          **Em**          **D**  
There ain t no rainbows shining on me  
**G**          **C**          **D**          **E**  
Shades of grey are the colors I see
