

**This Night**  
**Billy Joel**

A            **F#m**                            **B**                            **E**  
Didnâ€™t I say I wasnâ€™t ready for romance

A            **F#m**                            **B**                            **E**  
Didnâ€™t we promise we would only be friends

D            **Bm**                            **E**                            **F#m**  
And so we danced, though it was only a slow dance

D            **Bm**                            **E**                            **A**  
I started breaking my promises right there and then

**F#m**                            **B**                            **E**  
Didnâ€™t I swear there would be no complications

A            **F#m**                            **B**                            **E**  
Didnâ€™t you want someone whoâ€™s seen it all before

D            **Bm**                            **E**                            **F#m**  
Now that youâ€™re here, itâ€™s not the same situation

D            **Bm**                            **E**                            **A**  
Suddenly I donâ€™t remember the rules anymore

**F**    **C/E**            **F/A**    **C/G**

This night can last forever

A            **F#m**                            **B**                            **E**  
Iâ€™ve been around, someone like me should know better

A            **F#m**                            **B**                            **E**  
Falling in love would be the worst thing I could do

D            **Bm**                            **E**                            **F#m**  
Didnâ€™t I say I needed time to forget her

D            **Bm**                            **E**                            **A**  
Arenâ€™t you running from someone whoâ€™s not over you

**F#m**                            **B**                            **E**  
How many nights have I been lonely without you

A            **F#m**                            **B**                            **E**  
I tell myself how much I really donâ€™t care

D            **Bm**                            **E**                            **F#m**  
How many nights have I been thinking about you

D            **Bm**                            **E**                            **A**  
Wanting to hold you but knowing you would not be there

**F**    **C/E**            **F/A**    **C/G**
