

**Feels So Good**

**Billy Lockett**

[Verse 1]

**F** **Am** **G** **Am**  
I know if we were on water I wouldn't alight  
**F** **Am** **G** **C**  
I said a couple-a things that felt right at the time  
**F**  
We broke up for a reason  
**Am** **G** **Em**  
Last night I forgot the reason why  
**F**  
I know I shouldn't have called you  
**Am** **G**  
You shouldn't reply

[Pre-Chorus]

**C** **F** **Am** **G**  
Call it a rush of blood to the head I should've ignored  
**C** **F** **Fm** **G**  
I never thought it'd end in a bed where I don't sleep anymore

[Chorus]

**F**  
Why does it feel so good?  
**Am** **G**  
Breaking all of the rules I had with you  
**Am** **F** **Am** **G**  
I know I drank too much and said enough to set us off again  
**F**  
Why does it feel so good?  
**Am** **G**  
Crossing all of the lines I made with you  
**Am** **F** **Am** **G**  
Truth is I've woken up and realised I can't go back again

[Verse 2]

**F**  
I'm not your lord or your saviour  
**Am** **G** **E**  
You won't ever be mine  
**F** **Am** **G**  
If I said it before, said it a million times

[Pre-Chorus]

**C** **F** **Am** **G**  
Call it a rush of blood to the head I should've ignored, ignored

**C F G**  
I never thought it d end in a bed where I don t sleep anymore

[Chorus]

**F**  
Why does it feel so good?  
**Am G**  
Breaking all of the rules I had with you  
**Am F Am G**  
I know I drank too much and said enough to set us off again

**F**  
Why does it feel so good?  
**Am G**  
Crossing all of the lines I made with you  
**Am F Am G**  
Truth is I ve woken up and realised I can t go back again

**F**  
Why does it feel so good?  
**Am G**  
Breaking all of the rules I had with you  
**Am F Am G**  
I know I drank too much and said enough to set us off again

**F**  
Why does it feel so good?  
**Am G**  
Crossing all of the lines I made with you  
**Am F Am G**  
Truth is I ve woken up and realised I can t go back again  
**Am F Am G**  
Truth is I ve woken up and realised I can t go back again
