Verse 1:
```
        D(all the way)
```
Let the rain fall down
let it fall to the ground
Let the rain fall down
to the ground
And the birds don t sing
no they don t make a sound
When you re six feet underground
Well they cast me out
when the word spread around

That I never sang in the church
And it took one night
for the town to decide
I m afflicted by the curse

Refrain 1:
```
        Eb
And the rain falls down
                          D--
let it fall to the ground
        Eb
And the birds don t sing
                          D--
no they don t make a sound
      Eb
So I look to the sky
        F#
tell me why tell me why
  Gm         F/A      Bb
Do they all get to live
      Cm         D
and I have to die?
```

Verse 2:
```
        D(all the way)
So they marched me down
to the center of town
With their pitchforks
high in the air
I was chained and bound
with a blindfold around
So the judge wouldn t
catch my stare
And they hung my soul
from the gallows pole
But the witch
they never found
So to those who don t
 fit society s mold
Learn to swim or
you will drown
```

(Repeat Refrain)

Chorus:
```
        Bb
And the angels sing
      F
let it shine let it shine
```

```
             Cm
Dry the teardrops
             Gm
from my eyes
          Bb
And the bells will ring when
     F
the blind lead the blind
          Cm                Gm
Cause the dead can t testify
       Bb
And because I can t
          F
take an eye for an eye
        Eb
In the afterlife I ll
Gm                    D--
haunt you till you die!
