Birdie Hilltop

I doubt this tab will be viewed much because not many people listen to Birdie Hilltop...

but I love this song and hopefully someone will get some usage out of my laying it out.

I was going to include the chords along with the words to help with timing but UG s tab and chord creator really suck and make it difficult so just listen to the song for timing.

Intro and verse chords: **G, D, C, Am**

Bridge chords: **Em, C, G, D, Em, C, G, C**

Verse:

I might be lonely but I think I ll stay inside my room all fuckin day

I don t mind....being sad sometimes

I might be stuck between my bedsheets now, I wonder in just how the hell,

I got to this town.....I wanna leave it.

Bridge:

And as I m walkin down the road, I remember what it s like.....to be cold

And it s so sad, I need someone to hold my hand...yeah

(ohhh oh oh ohh s)

Verse 2:

There might be something wrong with my eyeball, afraid to say it s gonna fall out

The doctors don t....have any bright ideas.

I might be achin but I m tellin you, the only time I don t feel blue

I m staring at....the cinema screen.

Bridge 2:

And as I m sittin in my room, drinking tea until the after....noon

It is quite clear, I m gonna be around...for half....a year.

Verse chords, followed by an end on G.
