

Standing In The Way Of The Light
Birdy

[Intro] **G D Am C D**

G **D**
Through the driving rain
Am
I have lost the words
Em
To peace us back together
D **G**
To tell you how it hurts.
D
Cause lately we ve been breaking
Am
All we ve built so far
Em
And I m tired of sitting waiting
D **C**
Alone in the dark.

Em **D** **C**
There s still a way to make it right
Em **D** **G**
We ll find the strength this time.

G **D**
And pull back this fail
Am
Turn night into day
Em **D** **G**
Don t you know you re standing in the way of the light?
D
Pour oil on these flames
Am
Speed up my heart again
C **D** **G**
Don t you know you re standing in the way of the light?

G **D**
Round we go in circles
Am
Does it have to be this hard?
Em
We can stop the fighting
D **C**
If you let down your guard
Em **D** **C**
There s still a way to make it right

We ll find the strength this time
