

**Abe Lincoln**  
**Bishop Allen**

The reason I wrote the chords for this song (My first tab ever) is because I can't even

the lyrics on the internet.

If anyone else knows this song and the lyrics please email me at [lmnt1080@verizon.net](mailto:lmnt1080@verizon.net)

any corrections.

Trying to find these lyrics was like writing a history report on presidential assassinations.

I play this on acoustic to woo the political science ladies.
