

This Love Is Forever

B.J. Thomas

B

First love

E

Taught me how to break my heart

B

How to wander around in the darkness

F#

On my way back to the start

B

When a new love

E

Would be there to take my hand

B

When the same old words I d always heard

F#

I d believe them all over again

G#

B

Though I knew it could never be

Make up for all the ones in the past

Young love

E

Was only a stepping stone

B

That led me in every direction

F#

Till I could find where I belong

B

Your love

E

Is the one I've been searching for

B

You make me feel like the others weren't real

F#

Like I never knew love before

G#

B

You don't have to say a word

E

F#

Cause in my heart I've already heard

F#

You say

B

E

This love is forever

B

E

This love is forever
