This Night
Black Lab

These chords are an INTERPRETATION of this song. This is NOT an exact rendition

of the arrangment by Black Lab. It s an acoustic adaptation. Still, you may
find it useful.
(Pick the verses rather than strum, keep the picking pattern simple)

[Verse 1]
```
          Am                 E
There are things I have done.
            E             Am
Thereâ€™s a place I have gone.
        Am(bar)             E
Thereâ€™s a beast and I let it run
                E    Am
now itâ€™s running my way.
          Am              E
There are things I regret
            E                 Am
You canâ€™t forgive you canâ€™t forget
        Am(bar)         E
Thereâ€™s a gift that you sent
            E    Am
you sent it my way.
```

(Yes â€¦ the verse DOES end w/ Am and Chorus still starts with Am
If you pick the verse and strum the chorus it works great)

[Chorus]
```
              Am
So take this night
        G
Wrap it around me like a sheet.
   Dsus2
I know Iâ€™m not forgiven
       E
but I need a place to sleep.
              Am
So take this night
        G
Lay me down on the street.
   Dsus2
I know Iâ€™m not forgiven
       E                         Am
but I hope that Iâ€™ll be given some peace.
```

([Verse 2] Back to simple picking.)
(Follow the **Am**-2x **E**-2x pattern originally set in the first verse and remember

this song
all about vocal inflection not guitar prowess ... listen to the song if you don
t me.)

There’s a game that I played.
There are rules I had to break.
There’s mistakes
that I made but I made them my way.
So take this night
and wrap it around me like a sheet.
I know I’m not forgiven
but I need a place to sleep.
So take this night
and lay me down on the street.
I know I’m not forgiven
but I hope that I’ll be given some peace.

Some peace, some peace.

If you d like a more exact version of this song - figure it out for yourself.
