

an i cant wake up can you

E **G#**
coz i cant breathe i cant see
A **Am**
i dont wanna die but i cant live this life
E **G#** **A**
another way an away, uncover me
Am
when im underneath

E **G#**
underground, under earth,
A **Am**
theres no lights, no sound
E **G#**
no machines, no pretending
A **Am**
feel safe underground
E
underground

And that s the lot. the G in the chorus may be a bit off but its close enough.
I love this song and in the years since I first sat down and figured it out
it still not been uploaded to UG by anyone so I thought i d do it
for those few people out there who care. corrections (if necessary) are
welcomed. :)
