C
Love sometimes leaves you
    E      A       D
As dead as yesterday
D                               G
Hoping to hold a handful of sunshine
         D                    C
Like a child told it cannot play
G                           C

And there is where you ll stay
G                                    C
