

**Just Killing Time**  
**Black Label Society**

Hello there! This is very, very simple one. This is perfectly correct, I m 100% sure.

\_\_\_\_\_Black Label Society - Just Killing Time\_\_\_\_\_

Intro: **Bm, A, Bm, A**

**Bm A**  
I sit reflecting

**Bm A**  
I feel the end has begun

**Bm A**  
It seems my days

**Bm A**  
now mirror the setting sun

**Bm A**  
So many places

**Bm A**  
that I have been

**Bm A Bm A**  
This ride that was long seems so short in terms of now and then

CHORUS:

**G D/F# Em**  
Ooooooooooooooh...

**Em**  
For All that has been

**G D/F# Em**  
Ooooooooooooooh...

**Em**  
And All that is

**G D/F# Em**

Ooooooooooooooh...

**Em**

All that s to be

**G**            **D/F#**

**Em**

Ooh Lord, I m just killing time

**Em**

And time s killing me

(play all the verses and choruses the same way)

Dead man breathing, just taking up space  
Calloused and weathered like the lines on one s face  
Dead man breathing, my conscience is bare  
The lining of my soul is torn yet I no longer care

For All that has been  
And All that is  
All that s to be  
Lord, I m just killing time  
And time s killing me

SOLO: **Bm, A, Bm, A**

For All that has been  
And All that is  
All that s to be  
Lord, I m just killing time  
And time s killing me

(outro = intro)
