This is the opening riff:

```

```

And here are the chords for the chorus:

```

Don t you mess up my baby
B                A
Don t you mess up my baby
E                A
Don t you mess up my baby
B                A
Don t you mess up my
```

```
E                A
Don t you mess up my baby
B                A
Don t you mess up my baby
E                A
Don t you mess up my baby
B                A
Don t you mess up my
```

And the verse:

```
E                A                B                E        A B
You smoked all my dope, chased a rainbow, and then you sang a song
E                A                B                E                A B
You drank all our beers, picked some flowers and things were going strong
E                A                B
You tripped all our blotter and went out for a ride
E                A                B
Now settle down and have some children cause your brain is fried
```

Then it s all the same chords throughout the song.
Hope this helped.
Love, Matisse
