

When Its A Black Out
Black Lungs

Hey,
Never tabbed anything before

When its a Black out - Black Lungs

The first bit is Just **E5 - F#5 - G#5 - B5 - F#5**
Then during the Chorus its **G#5 - F#5 - B5 - G#5 - F#5**
He builds up to the chourus bit with palm muted E5 after the little break
Listen for timing and order,
Way too easy, still unsure how he ended up with his own record deal
