

The Space Of Your Mind
Black Mountain

G **C**
The cold chill hits the night

G
As we're dying for summer

Em **C**
Stare out your window

D
To the flickering light

G **C**
Let the sun breathe us in

G
Our bodies are waiting

Em
There's no one quite like you

A **C** **G**
Shelter me holy tonight

A **C** **G**
Flesh covered stories shine in the gleam of your eyes

A **C**
Riding the crazy blue waves

G
Through the space of your mind

C **G** **C** **G** **C** **A** **C**

G **C**
Lets make our own scene

G
And reign over our heaven

Em **C**
In your arms there is peace

D
In your voice there is calm

G **C**
Lets run for the hills

G
Then pour down like silver

Em
Its a wondrous thing

A **C** **G**
When the heart has nothing to hide

A **C** **G**
Flesh covered stories shine in the gleam of your eyes

A **C**
Riding the crazy blue waves

Through the space of your mind
