```
*****  
Tuning: open F#:   F#  
                   A#  
                   F#  
                   C#  
                   A#  
                   F#
```

Tune your bottom E string down to **F#**, so that it matches the first chord played during the song.

Then tune on these frets (5-5-5-4-5 being standard tuning): 4-3-5-4-9

I am unsure of what these actual chords are as this is not a standardized tuning, so
with me and ignore the chord name; just follow the fingering.

```
F#:      0-0-0-0-0-0-0-----| (open strum)
F#add9: 0-0-0-0-12-0-0--|
D:       0-4-7-0-0-0-x---|
B7:      5-5-0-0-0-0-0---|
B:       0-0-0-5-0-0-0---|
A#:      0-0-0-4-0-0-0---|
G#:      0-0-0-2-0-0-0---|
C#:      7-7-0-0-0-0-0---|
E:      10-10-0-0-0-0-0-|

F# A# \ G# \ B

And I am aching

Outro: And I move on, and I am aching etc.

You are basically playing variations of the chord phrases you found in the song,
with
exception of this little ditty:

Open strumming the entire time! (meaning strum all 6 strings) just slide your
index
onto the notes:

```
F#|--0-----|
A#|--0-----|
F#|--0-h-2-\-4-----|
C#|--0-----4-----|
A#|--0-----3-----|
F#|--0-----|
```

Once you ve figured out the timing, the song is relatively simple.
