

Fade Away

Black Stone Cherry

It s easier to play this song 1 full step down so those will be the chords I use but

I ll also list the ones you would use in standard tuning at the bottom.

Update: This sounds more than perfect on piano. Don t rate low or complain because

you have to change tuning or play some barre chords.

[Verse 1]

G **F**
If I died today, I wonder what you d say
C **Am**
Would you criticize my life, or smile and wave goodbye?
G **F**
If I died today, would you be afraid?

Would you be thankful for our time, or would you hang your head and cry?
Em **D** **G**
Cuz girl I know it could go either way

[Chorus]

G **F**
Baby Baby don t you love me?
C **Am**
All your tears wont change your past
Em **D** **G**
