

Run Away From it All
Blackberry Smoke

F **C** **G**
Standin on a bridge, see the water keep flowin by, by
F **C** **G**
I flipped a quarter in the river, then I headed for the other side, side
F **C** **C**
I made the same wish that I always do
Em **Em** **C**
I m just fool enough to think they ever come true
D
Came in like a lion, now I m out like a lamb
D
They don t even know who I am

G
Miles and miles wide open for me
Am
Got it all laid out so beautifully
C **G**
Don t you worry bout a thing, baby, we can run away from it all

F **C** **G**
Old ghost whistle in the wind in the dead of night, night
F **C** **G**
I m walkin through the valley of the shadow headin for the light, light
F **C** **C**
I wore out my welcome like I always do
Em **Em** **C**
Got to find myself a life that s shiny new
D
They say that the truth is gonna set us free
D
I ain t waitin round to see

G
Miles and miles wide open for me
Am
Got it all laid out so beautifully
C **G**
Don t you worry bout a thing, baby, we can run away from it all
G
Squeezin every drop outta what s left of my time
Am .
Jumpin on tormorrow before it goes by
C **G**
No matter what they say, babe, we can run away from it all
