Am

On a long road, miles to go

It s winding and cold and its covered with snow

But I ask you what we all want to know

Where are we going from here...

Am

Lines on my face , lines on my hands

Lead to a future I don t understand

Some things don t go as they re planned...

Where are we going from here...

Tracing the trails through the mirrors of time

Spinning in circles with riddles in rhyme

We lose our way, trying to find

Searching to find our way home...

Trying to find our way home...

Am

As the day dies, with tears in our eyes

Dm G

There s too few hellos and too many goodbyes

G E Am

Silence answers our cries...

G E Am

where are we going from here..

Am

We re all on this road, with miles to go

Dm G

Braving new pathways into the unknown

G E Am

But who do you ask, when no one really knows

G E Am

Where we are going from here...
