Never Loving You
Blake Shelton

This song was written by Kendell Marvell and Chris Stapleton. Recorded by Blake
Shelton.

```
A                                                            E
I can see a day that I won t want to hang out with the boys all night.
      E                                                 A
Yeah, and I can see a day that I ll walk off this dead end job for good
     A                                         D  slide down
And I can see a day when I won t be afraid of getting older.
        A               E                          A    A7
But no mater what I do, honey I can t see me never loving you.
```

Chorus
```
      D                                                      A
Some things are bound to change, some things stay the same like the ought to
      D                                          E
Some things are ment to be just like you and me together.
A                A7                       D  D slide down
If I die today or if I find a way to live forever.
   A                          E                     A
No mater what I do, darling I can t see me never loving you.
```

```
Inst [A] A7 [D] D slide [A] E [A] A
```

verse 2
```
A                                                                  E
Yeah and I can see a time when you won t think you look as good as you used

to.
        E                                          A
Oh, and I can see a time your auburn hair will turn to grey
   A               A7                       D        D slide down
And I can see a time you think you don t blow my mind but I can tell you
   A               E                      A       A7
No matter what you do, darling I can t see me never loving you
```

Chours

Yeah, some (D)things are bound to change, but some things stay the same like
they (A)ought to
Some (Bm/D)things are meant to be just like you and me to-(E)gether-s

(**A**)If I die today or (**A7**)if I find a way to live for-(**D**)ever D slide down
No (**A**)matter what I do, (**E**)I can t see me never lovin (**A**)you (**D**) D slide

(Tag)
No (**A**)matter what I do, honey, (**E**)I cant see me never lovin (**A**)you

Outro.: (**A**) x times and fade
