

**Colder Heavens**  
**Blanco White**

[Intro] **Am Em D**  
**Am Em D Am**

**Am Em**  
In every corridor that shifted the maze  
**D Am**  
No single part of you was ever the same  
**Em**  
Now we re so tired by the things we have seen  
**D Am**  
All we ve forgotten only visits in dreams

**F**  
How I misunderstood  
**G**  
Here I stand undressed  
**Am D**  
Here I confess my doubt  
**F**  
Did you know that I would?  
**G**  
From this fractured lens  
**Am D**  
We re unveiled again and again

[Refrão]

**Am Em**  
Sometimes I get the feeling I m lost  
**D Am**  
Just hiding it is never enough  
**Em**  
Now I find in every mirror a ghost  
**D**  
Only once I saw the killer  
**Am**  
Once I saw the killer up close

( **Am Em D** )  
( **Am Em D** )

[Bridge]

**Am**  
Heaven s over now  
**Em**  
I know it s gone

**Am**  
I know it s over now  
**Em**  
If colder heavens come  
**F**  
Carry me further down  
**G**  
Where our madness rests  
**Am** **Em**  
Where I ll have less to doubt  
**F**  
All I misunderstood  
**G**  
My abandoned friend  
**Am** **D**  
Our parade has already left

[Refrão]

**Am** **Em**  
Sometimes I get the feeling I m lost  
**D** **Am**  
Just hiding it is never enough  
**Em**  
Now I find in every mirror a ghost  
**D**  
Only once I saw the killer  
**Am**  
Once I saw the killer up close
