G

i wish none had happened yet

C

G

there are some things i cannot forget

we were stronger than the preachers
we were wiser than the wall
took our sleeping by the river
and the beaches in your car
up where you taught me how to drive a stick
and told me your family secret
you were scared i was caught

why d you stay behind
packing for the trip
why d you ask me to be the one
first through your lips
i was awkward and i could not hear
your body through my body s fear
we were going to hell

there are things i cannot recall
there are some things that would risk it all
but these are the things we cannot recall
these are the things i cannot recall
