Double Take - Blondie
Verse 1:
Looking for your face where it could never be,
I m following a trail only I can see.
Em
Raising waves of heat.
I press on in tiny bursts of speed.
G
Caught in my pursuit, I pay the fetish admission.]
The longing that I feel drives me mad in no direction.
Nailed by something cute,
I tear it out with microsurgical precision.
Bridge:
Em
Incender,
                                       C
Put some gas on the ember,
Lightning goes to ground...
Em
Incender,
                            C
Crazy fool on a bender,
Striking the ground,
                      D
Burning me down.
Chorus:
Double take,
love with an aftertaste.
I look again, was it your face?
```

```
G
Double take,
I m in an altered state.
I look again,
Was it really you?
Verse 2:
G
Another flash of fate, igniting and familiar,
Pulls me by the eye to the perimeter.
Revisiting my gaze...
Is that your face in the crowd?
Bridge:
Em
Incender,
                                         C
Put some gas on the ember,
Lightning goes to ground...
\mathbf{E}\mathbf{m}
Incender,
                              C
Crazy fool on a bender,
Striking the ground,
                       D
Burning me down.
Chorus:
Double take,
love with an aftertaste.
I look again, was it your face?
