

**I Can
Blue Pop**

C F A G C ... it s the same all the way through

First time we met sounds like i can
And second time was just the same
Expecting your call, your voice again
I love the way you spell my name

C		F
New life, new love with this new man		
A	G	C
I can believe in this new game		
C		F
Trapped in your eyes and in your hands		
A	G	C
I can love you until the end		

A little taste of better life
A naive girl dreams of new life
Dreamin to get all at my will
I can believe it could be real

I wished so much to be with you
I can believe it could be true
All day im just waiting for you
Walking around expecting you

New life, new love with this new man
I can believe in this new game
Trapped in your eyes and in your hands
I can love you until the end

Hey Whats up man I cant explain
You give no call, you give no sign
Oh ! I dont want to understand
Let me believe that its all fine

First time we met sounds like we can
But once again it was a lie
and charming prince has gone again
Soppy princess just wanna die !
