

**I Can**  
**Blue Pop**

**C F A G C** ... it s the same all the way through

First time we met sounds like i can  
And second time was just the same  
Expecting your call, your voice again  
I love the way you spell my name

**C** **F**  
New life, new love with this new man  
**A** **G** **C**  
I can believe in this new game  
**C** **F**  
Trapped in your eyes and in your hands  
**A** **G** **C**  
I can love you until the end

A little taste of better life  
A naive girl dreams of new life  
Dreamin to get all at my will  
I can believe it could be real

I wished so much to be with you  
I can believe it could be true  
All day im just waiting for you  
Walking around expecting you

New life, new love with this new man  
I can believe in this new game  
Trapped in your eyes and in your hands  
I can love you until the end

Hey Whats up man I cant explain  
You give no call, you give no sign  
Oh ! I dont want to understand  
Let me believe that its all fine

First time we met sounds like we can  
But once again it was a lie  
and charming prince has gone again  
Soppy princess just wanna die !
