[Verse 1]
```
            E                         B
If I had my way, I would never go back
        B                           Ebm
With my back to the wall, I d just let myself fall
E                       F#
  Watch the days turn to black
    G#m             F#     C#m           E     B
But now and again I find, you cross my mind
```

```
            E                         B
If I was a train, I would never slow down
        B                           Ebm
With my head in the sky and the world going by
E               F#
  Every nowhere town
      G#m                         F#
As I write one more letter to you
        C#m                           E
Lord I can t change the things that I do
```

[Chorus]
```
B                         F#
One day, when you discover
F#/G        G#m                       E
Just why I ran, ran away from you lover
              B                         F#
I know I m to blame, I feel so ashamed
              C#m    E           B
Call out your name,  after the rain
```

[Bridge]
(**B Eb F#**) **G#m** - **F#** - **C#m** - **E** - **E** - **B** - **B**

```
Ebm                         G#m
What do you want me to do
      Ebm                         G#m
I ve thrown away everything for you
      C#7
I ve wasted my dreams and each day it seems
      E                       F#
I m losing my way back to you
```

```
              E                                 B
It s time for a change, what else can I do
         B                                 Ebm
With the clock ticking time better make up my mind
E                     F#
  Is it me or is it you
      G#m                         F#
And tonight as I m losing control
        C#m                            E
I will drink to the queen of my soul

[Chorus]
B                          F#
One day, when you discover
F#/G          G#m                        E
Just why I ran, ran away from you lover
              B                        F#
I know I m to blame, I feel so ashamed
                 C#m      E          B
Call out your name,  after the rain

[Outro]
          E
After the rain
          B
After the rain

...  (Repeat to Fade)
