

**Dark Angel**  
**Blue Rodeo**

Key: C

[Note] I think this song sounds better on piano, like on the album, than on guitar. For easier playing on guitar, you could capo on the 3rd fret, and play in G relative to the capo position. In that case the chords would be **A Em D E Esus4 E/B** and **F#m** instead of **C Em F G Gsus4 G/D** and **Am** respectively.

[Intro]

**C G/D F G, C G/D F G Gsus4 G**

[Verse]

**C Em F C**  
I met this girl, she walking through one of my dreams  
**C Em F C**  
She kissed my eyes and everything  
**G/D F C**  
that she said made so much sense  
**G/D F Fsus2 C Am G Gsus4 G**  
to me, that I still feel like I m half asleep

My dark angel, she gave me diamonds for eyes  
She walked by, now I m hypnotized  
By this dream that just won t stop  
And I feel lke I ve always been lost in this dream

Rumours of heaven only speed the truth on earth  
My dark angel shine your lght on my curse  
You are the other that I have to find  
Until I do, guess I ll see you around in my mind

So Colorado is the place I have to go  
I heard a rumour she loves the mountains and the snow  
Well my dark angel, she gave me diamonds for eyes  
My dark angel, I offer you my heart  
My dark angel, think I loved you from the start

Cause there s this face that I know that I ve never seen  
Sometimes I feel I m living in someone else s dream  
Still I thank you for stopping to talk  
And I wonder, just into who s dream did who walk.

**C Em F C**  
Oh my dark angel  
**C Em F F**  
Shine your light on me

**C**                    **F C**                    **F C**  
Shine your light, Shine your light  
                  **G**            **Gsus4 G**  
Shine your light  
          **F**            **C**  
On me, on me.
