

Lost Together  
Blue Rodeo

Subject: Blue Rodeo - Lost Together

Lost Together                      Blue Rodeo                      Keelor/Cuddy  
=====

[Intro] F // C // Dm C F // C / Dm

[Verses]

F                      C                                      Dm                      C  
Strange and beautiful are the stars tonight  
F                      C                                      Dm  
That dance around your head  
F                      C                                      Dm                      C  
In your eyes I see that perfect world  
F                      C                                      Dm                      Bb  
I hope that doesn't sound too weird

Bb                                      C                      C                      F // // Bb                      (ring)  
And I want all the world to know  
C                                      Dm  
That your love's all I need  
Dm                      C  
all that I need  
F                      C // // Dm // // Bb                      C  
and if we're lost,                      then we are lost together  
F                      C // // Dm // // Bb                      C  
yea if we're lost,                      then we are lost together

F                      C                                      Dm                      C                      F                      C                      Dm  
I stand before this faceless crowd and wonder why I bother  
F                      C                                      Dm                      C                                      F                      C                                      Dm  
so much controlled by so few, stumbling from one disaster to another  
Bb                                      C                      C                                      F // // Bb  
I've heard it all so many times before  
Bb                      C                                      Dm                      Dm                                      C  
it's all a dream to me now, a dream to me now  
F                      C // // Dm // // Bb                      C  
and if we're lost,                      then we are lost together  
F                      C // // Dm // // Bb                      C  
yea if we're lost,                      then we are lost together

[2:32] Break : Bb Bb C Dm etc ...

**F**        **C**                    **Dm**        **C**        **F**        **C**                    **Dm**  
 In the silence of this whispered night I listen only to your breath  
**F**                **C**                    **Dm**        **C**        **F**                **C**                    **Dm**  
 and in that second of a shooting star somehow it all makes sense  
**Bb**                                **C**                **C**                **F** / / / **Bb**        (ring)  
 And I want all the world to know  
           **C**    **Dm**  
 That your love s all I need  
**Dm**                **C**                / / /  
 all that I need  
           **F**    **C** / / **Dm**                                **Bb**                **C**  
 and if we re lost,                then we are lost together  
           **F**    **C** / / **Dm**                                **Bb**                **C**  
 yea if we re lost,                then we are lost together
