Capo 2nd fret

**C**  
I got my plans from trembling hands  
**F** **C**  
I knew just what to do  
**C** **Am**  
Follow each step carefully  
**F** **G**  
And hope they pulled me through  
**C**  
My father ran to different lands  
**F** **C**  
And not a word we spoke  
**C** **Am**  
I was here to conquer fear  
**F** **G**  
And bring some glory home  
**F**  
There s a world of hate and sorrow  
**Em**  
out there standing in your way  
**F** **G**  
There s a load of compromise  
**C**  
before you die  
**F**  
And each time you step forward  
**Em**  
You get burned a little bit  
**C** **G** **Am**  
No longer know the way to say goodbye  
**F** **Dm7** **G**  
Now I m down here underneath your bedroom light  
**F** **G** **C**  
Rena please come out with me tonight.

**C**  
I look in through the window  
**F** **C**  
And I though I d take my chance  
**C** **Am**  
I taught myself to play

**F** **G**  
 so I could be where people danced  
**C**  
 No higher call than stars that fall  
**F** **C**  
 I waited patiently  
**C** **Am**  
 A thousand miles of pavement  
**F** **G**  
 That became my destiny  
**F**  
 You can wait a lonely lifetime  
**Em**  
 Wondering when it s gonna come  
**F** **G** **C**  
 You can while away the hours getting stoned  
**F**  
 But one day you get lucky  
**Em**  
 And you look in someone s eyes  
**C** **G** **Am**  
 That tell you you don t have to be alone  
**F** **Dm7** **G**  
 Now I m falling back just out of your sight  
**F** **G** **C**  
 Rena please come out with me tonight

**F** **C**  
 Oh now I know the way things go  
**F** **C**  
 And what I put you through  
**Am** **Em**  
 Cause when they try to get to me ( repeat twice)  
**F** **G** [ : / **C** / **C** / **F** / **C** / **C,Em,Am** / **F** / **G** / : ]  
 They get to me through you

**F** **Em**  
 I know it s not the kind of hurt that s easily set right  
**F** **G** **C**  
 And I know you got your reasons to stay inside  
**F** **Em**  
 But nothing ever happens when it s left out on it s own  
**C** **G** **Am**  
 You locked in there with just your wounded pride  
**Dm7** **G**  
 I m down here and I m way too tired to fight  
**F** **G** **Am**  
 Rena please come out with me tonight  
**F** **G** **C.....**  
 Rena please come out with me tonight
