And the clouds in my coffee are fading away

The clouds in my coffee are ----- fading away

Sipping my coffee I m loosing in my thoughts
Thinking of the advices that I sat at nought
I wanna be free breath n clean air
And feel the wind in my hair
There can t be any prize that I won t pay
While the clouds in my coffee are fading away
The clouds in my coffee are fading away

I wanna leave an empty cup for a full glas of wine
Greeding for money won t be the way of mine
There s only one place where I wanna be
Where the sky is wide and the gras is green
And if I ll be there then I will stay
But now the clouds in my coffee are fading away
The clouds in my coffee are fading away
The clouds in my coffee are ----- fading away
The clouds in my coffee are ----- fading away **E7**
