

Alone

Blues Traveler

The placement of the chords is a little loose, but play with it and you ll get the idea. If you only have one guitar, try playing the fast part with barre chords, works pretty well.

Intro: **A D**

A
I said I love you,
D
She began to cry.

A
She said she needed a friend,

D
I said I ll try.

A
Soon we d say nothing,

D
Somehow I never wondered why,

C
You see, she left me,

D
She left me,

A D
I m alone.

I d loved her always,
She didn t know.
I tried patience,
Let a friendship grow.
I tried to keep her,
That s what made her go.

You see, she left me,
She left me,
I m alone.

Beauty and the beast
Was how it seemed to be.
A love like hers
Aint meant for guys like me.
Some call me crazy,
Some politely call me free,
but either way

You see, she left me,
She left me,
I m alone.

A
I m trying to forget you but it just won t work,
D
I think I m losing my mind, I think I m going berzerk,
A
I love you with a passion that you just don t know,
D
And I kinda wish right now that I was telling you so,
A
I could rant, or rave, or play some little game,
D
But when I look into your eyes, it all seems the same,
A
You weren t meant for me and that s a sad but true fact,
D
Now I don t care how I look and don t care how I act,
A
You set me free; I m a man among men,
D
But when I think of what I missed it starts all again,

A
Now alone in the darkness of each new day,
D
My heart is on its own.
A
I wanna rip it from my chest and throw it away,
D
Watch this bassman take me home.

I guess some day,
Love will soon be here,
And maybe then,
I ll see things more clear.
I guess I got excited,
Cause it felt so near,
and

You see, she left me,
She left me,
I m alone.

But I know I d give my life,
Just to hold her now,
And who knows?
I might see her around.
Hopes can always go up.
Tears can only come down.

You see, she left me.
She left me,
I m alone.
