over and over again. Its also great simulate the guitar, I use a phaser the maximum settings. You could al	play along to since it just repeats itself to play while smoking:) To properly with the rate and width knobs turned to so use a flanger with the rate and depth lly anticlockwise. Here are the words:

I think too much on things I want too much and I m resigned to that,

Only you can fill my blank heart and I m resigned to that.

I wish the sun could just keep me warm and I m resigned to that

I ll forget to breathe someday I never stop to think why.

- I did this from memory, so if you think there s a mistake and something doesn t sound right, you re probably correct. The song is just chord arpeggiating (sp.?) and its easy to play around with the pattern...
