Tuning: EADGBE (low to high)

I was watching Good Morning America and I figured this out. This is the B side of his soon to be released single. This song is very basic to play, so I ll just show you the parts you need to know.

Chords used:

- G:** 320033
- Cadd9:** x32030
- E:** 022100
- C:** x32010

The verse part goes like this:

G
I ve been down
now I m blessed

Cadd9
I felt a revelation coming around

G
I guess its right, it s so amazing

Cadd9
everytime I see you I m alive

G
you re all I ve got
you lift me up

Cadd9
all my dreams are in your eyes

The intro follows the same pattern of the chords in the verse. All of the verses are the same chord-wise.

The chorus bit goes like this:

```

e |-----0-0-0-0---0---0-----|
B |-----0-0-0-0---1---1-----|
G |-----1-1-1-1---0---0-----|
D |-----2-2-2-2---2---2-----|
A |--3---2---0-----2-2-2-2---3---3-----|

```

E|-----3-----0-0-0-0-0-----|

Play that 2 times.

Thats it for the song. Its a very simple song. He plays the chord in the verse for the intro with the harmonica, and plays them everytime with each verse. He plays the chorus riff twice with each chorus, then he ends on a G chord. Hope you had fun playing his!
