Intro:  **G#m E B Bb/B**
        **G#m E B Bb/B G#m**

```
            E                 B         Bb/B G#m
You will be always on my mind
                E                 B         Bb/B G#m
I don t know how to say goodbye
            E                 B
I wasn t brave enough to cry
                    Bb/B   G#m
I try to leave it all behind
                    E                 B         G#m
But echoes of you come back around
```

```
            E                 B
I hear the echoes of your love
                        Bb/B   G#m
And singing it in my soul
                    E                 B         Bb/B   G#m
Why are the memories not enough?
                E                 B
I hear the echoes of your love
                    Bb/B   G#m
I gotta let you go
                    E                 B
Let all the embers turn to dust
                        Eb/E
To dust, to dust, to echoes
```

```
G#m         E
Yeah yeah yeah oh
B                   Bb/B
Yeah yeah yeah oh
G#m         E
Yeah yeah yeah oh
B
To echoes
        Bb/B
To echoes
```

```
G#m             E                       B       Bb/B   G#m
```

```
Send me a message send a sign
            E                        B        Bb/B   G#m
Something to get me through the night
            E                    B
Wherever you are I need to know
                    Bb/B       G#m
Maybe that s why I wait for ghosts
          E               B
Pieces of you I had to find

            E                   B
I hear the echoes of your love
                        Bb/B   G#m
And singing it in my soul
              E             B          Bb/B   G#m
Why are the memories not enough?
            E               B
I hear the echoes of your love
                  Bb/B   G#m
I gotta let you go
              E                   B
Let all the embers turn to dust
                      Eb/E
To dust, to dust, to echoes

G#m          E
Yeah yeah yeah oh
B                  Bb/B
Yeah yeah yeah oh
G#m          E
Yeah yeah yeah oh
B
To echoes
        Bb/B        G#m
To echoes

                  E           B            Bb/B        G#m
Suddenly I can feel the silence surround me
              E                      B
I suddenly need to hear your voice

              E                   B
I hear the echoes of your love
                        Bb/B   G#m
And singing it in my soul
              E             B          Bb/B   G#m
Why are the memories not enough?
              E                   B
I hear the echoes of your love
                    Bb/B   G#m
```

```
I gotta let you go
            E                       B
Let all the embers turn to dust
                      Eb/E
To dust, to dust, to echoes

G#m          E
Yeah yeah yeah oh
B                       Bb/B
Yeah yeah yeah oh
G#m          E
Yeah yeah yeah oh
B
To echoes
        Bb/B
To echoes
```
