Nobody Cept You
Bob Dylan

NOBODY CEPT YOU- Bob Dylan

[Intro]
G C6/G G C6/G G   C6/G   G

[Verse]
```
          G               D                 G
There s nothing  round here to me that s sacred
      Em          C
 Cept you, yeah you
          G               D               G
There s nothing  round here to me that matters
      Em          C
 Cept you, yeah you
```

[Chorus]
```
   C
You re the one that reaches me
             G
You re the one that I admire
   C
Every time we meet together
      G
I feel like I m on fire
     C
Nothing matters to me
             G              Em
And there s nothing I desire
         C            Am
 Cept you, yeah you
```

[Verse]
```
G               D                 G
Nothing  round here I care to try for,
      Em          C
 cept you, yeah you
     G               D       G
Got nothing here to live or die for,
        Em          C
except you, yeah you
```

[Chorus]
```
C
There s a hymn I used to hear
        G
In the churches all the time
```

```
C
Make me feel so good inside
    G
So peaceful, so sublime
      C
And there s nothing that reminds me of that
      G           Em
Old familiar chime,
        C           Am
except you, yeah you

[Bridge]
  C
Used to run in the cemetery
                                    G
Dance and run and sing but I was a child
D                     G
And it never seemed strange
        C
But now I just pass mournfully
                                    G
By that place where bones of life are piled
   D                 G
I know somethin  has changed

[verse]
              D             G
I m a stranger here and no one sees me
        Em          C
,except you, yeah you
G           D           G
Nothing any more seems to please me,
        Em          C
except you, yeah you

[Chorus]
C
Nothing hypnotizes me
    G
Or holds me in a spell
C
Everything runs by me
          G
Just like water from a well
C
Everybody wants my attention
      G                       Em
Everybody s got something to sell
          C           Am
Except you, yeah you
                      G
I m in love with you!
G    C6/G   G   C6/G   G   C6/G      G
```
