riff 1  
rap:  
lovin you was like the song that we play  
every three minutes and thirty seconds every day  
and every chorus was written for us to recite right  
and a beautiful melody of devotion every night  
this potion might this ocean might carry me  
in the wave of emotion i asked you to marry me  
and every word every second and every third  
expresses the hapiness more clearly than ever heard  
and when i play em every chord is a poem  
telling the lord how greatful i am coz i know him  
the harmonies stress a sensations to my love to your corres  
if you asking then i m telling you yes  
standing love take my hand and love ja blast

i want to give you some good good lovin
