Save A Little BoDeans

Capo 2

Α

```
It s just a matter of time now
It s just a matter of where we are
They say it wont last forever
But it feels that way
The walls of hope come tumbling down
                  D
And I find shelter where you are
I feel like a fool
D
But then
I m falling
Falling for you
So save a little
D
Love a little
Save a little love for me
Please save a little
Love a little
Save a little love oh
```

The A D chord pattern seems to continue in pretty much the same fashion for the whole song. There is one part, at the bridge, where the chords are palm muted and chunked.
