

Lights Out Words Gone
Bombay Bicycle Club

First Tab :) I noticed that there were no chords to this song on here. I will also work out the tab, and add it as soon as it is finished. :)

Corrections Welcome! ongheen@gmail.com

The chords are the same through the whole song :)

Ab

Keep your old and wasted words

Eb

My heart is breaking like you heard

Ab

But the town has always turned

Eb

These lies and made them all burn

Ab Eb Ab Eb

Keep your old and wasted words

My heart is breaking like you heard

But the town has always turned

These lies and made them all burn

Can you feel the leeches bite

That boy that she took out tonight

He's brave and walking sure

Through all the spots you're working for

Keep your old and wasted words

My heart is breaking like you heard

But the town has always turned

These lies and made them all burn

When the light is out and words have gone

Let me be the one to try it on

[repeat]
