Bon Iver - Beach Baby (Blood Bank EP)

This is my first post and as an intense Bon-ite I can assure you this tab is nearly flawless...

Standard Tuning

C = 332010
F = 133210
Em = 022010
Am = X02210
Am/G = 3X2210 (just play an Am, with your pinky on the G)
D/F# = 2X0230

Strumming pattern (strum with hand, no pick)- 1 strum down on the bass note with thumb, 2 strums down on the chord 1 strum back up...repeat -again, listen to the song and if you re a remotely good musician, you ll get it...

Letter with a dash (ex. C-) means play chord an extra measure, you ll get it if you listen to the song.
