

Bed Of Roses

Bon Jovi

[Verse 1]

C
Sitting here wasted and wounded
G
At this old piano
C
Trying hard to capture
G
The moment this morning I don't know
D
Cause a bottle of Vodka
C
Is still lodged in my head
G
And some blonde gave me nightmares
C
I think that she's still in my bed
C
As I dream about movies
D **G**
They won't make of me when I'm dead
C
With an ironclad fist I wake up and
G
French kiss the morning
C
While some marching band keeps
Its own beat in my head
G
While we're talking
D **C**
About all of the things that I long to believe
G
About love and the truth and
What you mean to me
C **D** **G** **D**
And the truth is baby you're all that I need...

[Chorus]

Em **D** **C** **G**
I want to lay you down in a bed of roses
Em **D** **C** **G**
For tonight I sleep on a bed of nails
C **G** **C** **G**
Oh I want to be just as close as the Holy Ghost is
Em **D** **C** **G**
And lay you down on a bed of roses

[Verse 2]

C

Well I m so far away

G

That each step that I take is on my way home

C

A king s ransom in dimes I d given each night

G

Just to see through this payphone

D

Still I run out of time

C

Or it s hard to get through

G

Till the bird on the wire flies me back to you

C

I ll just close my eyes and whisper

G

Baby blind love is true

[Verse 3]

C

Now as you close your eyes

G

Know I ll be thinking about you

C

While my mistress she calls me

G

To stand in her spotlight again

C

Tonight I won't be alone
But you know that don't

G

Mean I'm not lonely

I've got nothing to prove
