If you were born again tomorrow

You've seen it, that's not what you wanted

Ain't gonna say the sky is falling

You gotta read between the lines

Stop waiting for a sign

Who's gonna live your life?

Yeah, you don't have to look back to see where we are

The future's looking brighter than a handful of stars

You gotta hold on, hold on, be strong

If you were born again tomorrow

Would you live your life like yesterday?

If you were born again tomorrow

I wouldn't live my life any other way

B G#m D#m C#

Don't have to end up where you started

Heaven loves the broken hearted

You learn from your mistakes

Bones grow stronger when they break
