**May It Always Be**
**Bonnie 'Prince' Billy**

Capo on 4th fret
```
C                 Bb  F         C
I ve been with you for a fairly long time,
C                         Bb  F         C
May I call you, may I call you, may I call you mine?
C          Bb F         C
And you unknown, have been with me,
C                       Bb  F         C
May it always, may it always, may it always be,
C                       Bb  F         C
Please don t leave my side, remember I love you,
C                     Bb      F            C
None of what I have done wrong was really done against you,
    C                       Bb      F          C
If you love me and I m weak, then weaker you must love me more,
   C                       Bb       F            C
To reinforce what s all so strong, in all the love we have in store,

C               Bb  F         C
By example you showed me, living s alright,
C                         Bb  F         C
Stay here with me, stay here with me, stay with me tonight,
C          Bb  F         C
And come with me when I go into the bedroom,
C                               Bb   F            C
And we ll play bride, and we ll play bride, and we ll play bride and groom,

Bb
If you had not been born you know,
Bb        Bb             C
 What would I, What would I be then?
Bb
I would not have strength to grow,
    Bb           Bb           C
And be counted, and be counted among men.

C                     Bb  F         C
Please don t leave my side, remember I love you,
C                     Bb      F            C
None of what I have done wrong was really done against you,
    C                       Bb      F          C
If you love me and I m weak, then weaker you must love me more,
   C                       Bb       F            C
To reinforce what s all so strong, in all the love we have in store,
```

[SOLO - I m not tabbing it. YOU tab it.]

```
C                                  Bb            F                       C
And in the morning we ll wrestle and ruin our stomachs with coffee,
C                                  Bb    F     C
Won t we be, won t we be, won t we be happy?
C                         Bb   F            C
We will rise in anger, love and ardor,
C                            Bb   F              C
Shining, shining, shimmering in love s armor.

C
```
