If You Stayed Over
Bonobo

```
    Am       F                   Am      F
If it s on it s on for good (yeah)
Am                F                     Am
Cause when it s gone it s gone for good
             F
Let me tell you
Am                F
And if you stayed over
              Am              F
You know we would, if we could

Am         Bb
Put it back together
Am        F
Make it good,  If I
Am         F           Am         F
..................................If I

Am               F                     Am      F
Breathe in the future, breathe out the past (yeah)
Am         F                   Am
Savor this moment as long as it lasts
            F
Let me tell you

Am         Bb
Put it back,
Am          F
Piece by piece
Am             F
If you stayed over
Am                F
I d make it so sweet
Am                     F
I d make you remember, baby
Am                     F
From your head to your feet

Am             F
And if you go now
              Am            F
We ll never know how it ends
Am         F
Make it good
Am          F
Make it good
Am           F
```

```
Make it good
Am              F
Make it good
```
