Em C D
Can t help this feeling

Em C D
I can t believe it s open for discussion

Em C D
We ve said our goodbyes

Em C D
I ve been a fool not to see the repercussions

Em C D
You ve had in my life

Em C D
I m at the point of no return

Em C D
I ve finally crossed the line

Em C D D
Don t want to stop and watch the bridges burn

Em C D
Cause I can t stand to see you stay behind

Em C D
I need your love

Em C D
I want you every way

Em C D
I need your love

Em C D C
Can t help this feeling coming back everyday

Em C D
I stayed around hoping you d discover

Em C D
How much there was to lose

Em C D
I spelled it out, I led you to the water

Em C D
But you re too blind to choose

Em C D
I gave it everything and more to make it

Em C D
I ve waited for so long

Em C D
I saw the chance to run and had to take it

Em C D
But something s missing and I know it s wrong

Em C D
I need your love
Em C D
I want you every way
Em C D
And I need your love
Em C D
Can t help this feeling coming back everyday

[Solo]

Em C D
I ve passed the point of no return
Em C D
And all the tears have dried
Em C D
Don t want to stop and watch the bridges burn
Em C D
Cause I keep wishing I was on your side

Em C D
I need your love
Em C D
I want you every way
Em C D
And I need your love
Em C D
Can t help this feeling

Em C D
I need your love
Em C D
I want you every way
Em C D
I need your love
Em C D
Can t help this feeling coming back everyday
