Vers 2

Well I don t understand the way things go down  
For some people who are living in town  
They have lost connection with reality  
Living only for the fashions on TV

You know that I spend my weekends  
Out hunting with my friends  
And that sure as hell is better than all trains  
It sure is

Chorus

Solo

Vers 3

Well hey there little purdy city girl  
I know that you want your diamond rings and pearls  
And you think us country boys ain t any good  
Cause you count money a lot higher than the woods

Well you know  
I think you all will see  
That fancy jewelry  
Ain t nothing to compare  
To living in the free

Outro

Cause we got shotguns, trucks and cattle  
Horses, whiskey and rye  
All the thing that keep the beat up in this hillbilly heart  
Keeps the beating girl

Shotguns, trucks and cattle  
Horses, whiskey and rye  
All the things that keep the beating in this hillbilly heart  
Keeps the beating, till the day I die
