We ve had a good time

```
Get Happy
Bowling for Soup
                GET HAPPY =)
Tuning: EADGHE
Intro: D5
Verse:
D5
She packed her shit and she left for the city
On the 8:10 train and I still can t believe it
                  G5
                                              D5
Man, I don t even know how we could let this happen
She slammed the door and she gave me the finger
D5
And we fell so fast I still can t remember
You can read it yourself, it s all in the letter
Man, I don t even know how we could let this happen
Chorus:
Maybe you re right
G5
we ve had a good time
Α5
             D5
                                         В5
I ll sit around, you get yourself a new life
                                A5
Go get your spot, go find your smile and get happy
Verse:
D5
Heard your back did you find what was missing?
Was it just that easy or were you mistaken
Man, I don t even know how we could let this happen
I don t even know how we could let this happen
Chorus:
Maybe you re right
G5
```

```
Α5
       D5
                                       В5
I ll sit around you get yourself a new life
           G5
Go get your spot, go find your smile
               D5
                                           В5
And just let it shine tonight wherever you are
I hope there s a spot (hope there s a spot)
Save me a smile
      D5 C5
And get happy, yeah
D5
     C5
Happy, yeah
D5 C5 G5
Happy, yeah
D5
            G5
Maybe you re right
We ve had a good time
         D5
                                       В5
I ll sit around you get yourself a new life
Go get your spot, go find your smile
               D5
                                           В5
And just let it shine tonight wherever you are
I hope there s a spot (hope there s a spot)
             A5
And save me a smile
       D5
And get happy
   D5
       G5
Get happy, yeah
   D5
       G5
Get happy, yeah
Verse:
D5
Packed her shit and she left me (find your smile)
Slammed the door and she gave me (find your smile)
Guess she s back in the city (find your smile)
Man, I just hope you re happy
```
