          C
It was so long ago
          G
That feels so strange to say
          F
How does 18 years ago
          C
Seem just like yesterday

A hundred kids from around the world
          G
On a ship to the great unknown
          F
2 boys for every girl
          C
You had never been away from home

You were drinking something really green
          G
Hopping around like a grasshopper
          F
I was sipping diesel gasoline
          C
Then I threw up on the ????
```

```
      F           G           C
I wonder if it ever crosses your mind
          F           G           C
Cos I m afraid its something I dwell on all of the time
```

F **G**
I hear your doing amazing, and
C **Am**
Believe me that makes me smile
F **G** **C**
But I hope you think of me every once in a while

INTRO

C
We watched the stars shine
G
Ate chicken by the slot machines
F
I was with a friend of mine
C
He got into your room-mate s jeans

We danced to Aerosmith
G
And then we watched the sun appear
F
I took a bracelet from your wrist
C
You took an earring from my ear

You twisted one last twirl
G
Then kissed me so fucking hard
F
And all at once our friends would leave
C
Our hair tangled in the ocean breeze

You told me you loved me
G
I asked you if you were sure
F
You said you thought so
C
And then I said that I loved you too

F **G** **C**
I wonder if it ever crosses your mind
F **G** **C**
Cos I m afraid its something I dwell on all of the time
F **G**
I hear your doing amazing, and
C **Am**
Believe me that makes me smile
F **G** **C**
But I hope you think of me every once in a while
