Pictures He Drew

**E B C# D**

He got up this morning

Rolled out of bed

And went out to change the world

Her head on his shoulder

He settles her down

It all started over and over again

**E B C# D**

(w/effects)

**E B**

His mom made him breakfast

**A**

Gets on the bus Goes out to see the world

**E B A**

He lies on the ground, wipes blood from his nose

**E**

Wonders why he s the one that doesn t fit In

(chorus)

**E B**

The pictures he drew

**A D**

But if only they told him

**E B**

You re never gonna be like anyone

**C# D**

And that s okay

**E**

Give into your feelings

**B A D**

Don t give in to the ones that will own ya

**E B C# D**

Sometimes they just don t go away

(w/effects)

**E B A**

Six double martinis, a night on the town

It sure makes the mornings long

**E B A**

He never imagined a life time like this would be

**E**

The only thing to let him get in Break down:

**A B**

He gets up

**E**

He falls down

**A**

Wishes he could get the nerve to end it all now

**A B**

He picks up the phone

**E**

And he slams it down

And swallows another

**A**

Now he ll never come around

**A B**

It s all or none

**C**

It s one for one

You can make it

**D**

But ya gotta do it all for yourself
