

**Where To Begin**  
**Bowling for Soup**

So yeah, after looking at some tabs on here for this song, and thinking this d be great acoustic, I thought i d post it up, since its fairly easy. The song s in D major, so you can start the song just by finger-picking a D major chord until the main song starts, then it s this:

Intro: **D A G A** x2

**D**

Sail away, sail away with me

**G**

I don t have a ship  
But we could get one easily

**D**

Drift away, drift away with me

**G**

On the raft we ll make of memories

**A**

**D**

On an ocean we can call forever more

**D**

**A**

I want to find

**F#m**

A piece of your mind

I want to see

**D**

Your make believe

I don t want to try so hard

**A**

I make it hard for you to breathe

**D**

Jump into the ocean

**A**

Living on a notion

**G**

If you re caught up in the motion

**A**

Back track and do it again

**D**

And if you make it up

**A**

I could never get enough

**G**

Me and you together

**A**

But you ve gotta tell me where to begin

Pre-Verse: **D A G A**

**D**

Break away, break away from me

**G**

No forget that, just sit here and look at me

**D**

Summer s day

Summer every day

**G**

And we watch the sunset come back up

**A**

And somehow know it never goes back down

**D**

**A**

I want to find

**F#m**

A piece of your mind

I want to see

**D**

Your make believe

I don t want to try so hard

**A**

I make it hard for you to breathe

**D**

Jump into the ocean

**A**

Living on a notion

**G**

If you re caught up in the motion

**A**

Back track and do it again

**D**

And if you make it up

**A**

I could never get enough

**G**

Me and you together

**A**

But you ve gotta tell me where to begin

**A** (Palm muted)or **A5**

I ve been saving up to buy more time with you

**Em** (Palm-muted) or **E5**

You ve been living it up with someone else

And that s okay with me

**F#m** **G** **A**

Because I know it and you know it too

**D**

Jump into the ocean

**A**

Living on a notion

**G**

If you re caught up in the motion

**A**

Back track and do it again

**D**

And if you make it up

**A**

I could never get enough

**G**

Me and you together

**A**

But you ve gotta tell me where to begin

Repeat the Chorus Chords once more here on the outro chorus (D A G A x2)

Then you can end by finger-picking the D major chord again. Hope this helps guys.

Gotta love bowling for soup!
